

CONVICT STEM III

25.00€

CONVICTSTEM

Features: New design Forged from 6061 Aluminum
w/ Cold Forged facets for strength.

- Length: 50mm • 10mm front threaded holes (standard)
- Colors: Black, Dark Blue, Gold, Red, or Silver • Weight: 5.8oz

CLUTCH

CLUTCH STEM
Features: CNC machined from 6061 Aluminum
T6 Al. Designed using precision computer
aided to reduce weight while maintaining
maximum strength. Length: 50mm
R100 Series (Standard) Hollow Chromoly
Cable. Standard Black, Dark Blue, Gold,
or Red. Weight: 6.4oz.

47.00€

TOP LOAD CLUTCH STEM

FEATURES: TLC STEM
Top load version of the Clutch stem. CNC machined
from 6061 T6 Aluminum. Designed using
precision computer aided to reduce weight while
maintaining maximum strength.

Length: 50mm
R100 Series (Standard) Hollow Chromoly
Cable. Standard Black, Dark Blue, Gold, or Red
Weight: 6.4oz.

47.00€

24.00€

**SHACKLE
HALF LINK
CHAIN**

Features: High quality machined with plates for durability with ET and larger drives. Hot link design makes adjustment of the rear and front on-screwed improve wear. Size: 1/2 x 1/8". Links: 80 total. Colors: Yellow coated Black or Silver. Weight: 9.8lbs. (72 links)

35.00€

Features:
CNC machined from 6061 Aluminum.
Unique offset webbing design increases
strength with lateral strength while
reducing weight.

Eternity
RING SPROCKET

Spindle Size: 1/2" / 22mm or 24mm with included adaptor
adaptors: 25-30t is 6.4mm thick & 22t is 9.4mm thick machined
down to 6.4mm. Sizes: 22, 25, 28, 30, 33, or 36 teeth
*Colors: Anodized Black, Dark Blue, Gold or Red
*Weight: 2.1oz. (25t)

22.00€

the CLASS RING SPROCKET

Features: CNC machined from 6061 Aluminum, with a simple
lightweight design. Spindle Size: 22mm or 24mm with adaptor (included)
Width: 5.2mm. Size: 25 teeth. Colors: Anodized Black, Dark Blue,
Gold, Red, or Powder White. Weight: 2.5oz. (25t)

THE MOOD RING SPROCKET

Features: CNC machined from 6061 Aluminum, unique geometric webbing
reduces weight w/o decreasing strength. Spindle Size: 15/16", 22mm or 19mm
with included adaptors. Width: 25-30t is 1/8" (6.4mm) thick & 22t is 9.4mm
thick machined down to 6.4mm. Sizes: 22, 25, 28, 30, 33 or 36 tooth
Colors: Two-tone Anodized Black, Gold or Red. Weight: 2.1oz. (25t)

35.00€

MEKMALITE Pegs

Features: Lightweight 5.8mm thick Thermally body with a 6061 Alloy back plate w/ a position anti-rotation pin & CNC Alloy inner sleeve to increase strength.

Dimensions: 104mm x 28mm - Colors: Black, Dash Blue, Gang Green, Neon Orange, Purple, Red, or White - Sizes: 30" or 14mm - Weight: 2.8oz. each (11mm)

12.00€

COLD FORGED CROMO PEGS

Features: Lightweight, Intensity based Cold Forged Cromo Pegs w/ a 4mm x 10mm x 20mm precision, dimensioned, spring Japan Chrome Chrome Nickel Steel 3.0" w/ a 1.5mm Weight: 2.0oz each (14mm)

15.00€

*Drop,
Intense and
Lively to wisp
Like the drop of a hat*

29.00€

Features: Lightweight, compact, Cold Forged Cromo Pegs w/ a 4mm x 10mm x 20mm precision, dimensioned, spring Japan Chrome Chrome Nickel Steel 3.0" w/ a 1.5mm Weight: 2.0oz each (14mm)

ROULETTE WHEEL FRONT

Features: Roulette front hub hand laced to a Roulette rim. Spokes: Black Spokes w/ Black Brass nipples. Drilling: 36h only. Colors: Black, Gang Green, Neon Orange or White. Weight: 32.5oz

120.00€

ROULETTE WHEEL CASSETTE

Features: Roulette cassette hub hand laced to a Roulette rim. Spokes: Black Spokes w/ Black Brass nipples. Drilling: 36h only. Driver: 8t w/ a bushing or 9t w/ 3 Japanese sealed bearings, RHD or LHD. Colors: Black, Gang Green, Neon Orange, White or Chrome Plate. Weight: 42.0oz (8t)

175.00€

EASY STREET FREECOASTER WHEEL

Features: Roulette Easy Street hub hand laced to a Roulette rim. Spokes: Black Spokes w/ Black Brass nipples. Drilling: 36h only. Driver: 10t Chromoly, RHD only. Colors: Black, Gang Green, Neon Orange, White. Weight: 44oz.

260.00€

THE ROULETTE CASSETTE HUB

Features: Low profile lightweight design, 6061 Aluminum body with 5 sealed bearings.
Axle: 14mm" hollow Heat Treated Chromoly w/ allen wrench end for easy maintenance.
Drilling: 36h only Driver: 8t w/ a bushing or 9t w/ 3 Japanese sealed bearings, RHD or LHD
Colors: Black, Gang Green, Neon Orange or White. Weight: 18.35oz. (8t)

100.00€

THE ROULETTE FRONT HUB

Features: Low profile light weight design, 6061 Aluminum body with sealed bearings.
Axle: 3/8" solid Heat Treated Chromoly Drilling: 36h only Colors: Black, Gang Green,
Neon Orange or White. Weight: 8.6oz.

45.00€

THE EASY STREET FREECOASTER HUB

Features: A simple easy to adjust "4 rail" roller bearing design allows from an almost instant drive engagement to a very slack engagement and allows for instant disengagement without backpedaling.
6061 Aluminum body with 4 sealed bearings. Axle: 14mm" hollow case-hardened Nickel Chromoly w/ allen wrench end for easy maintenance. Available with a nutted or bolt-on type axle. Drilling: 36h only
Slack: Externally adjustable Driver: 10t Chromoly, RHD only Colors: Black, Gang Green, Neon Orange or White. Weight: 19.6oz (bolt-on type), 20oz. (nutted type)

190.00€

65.00€

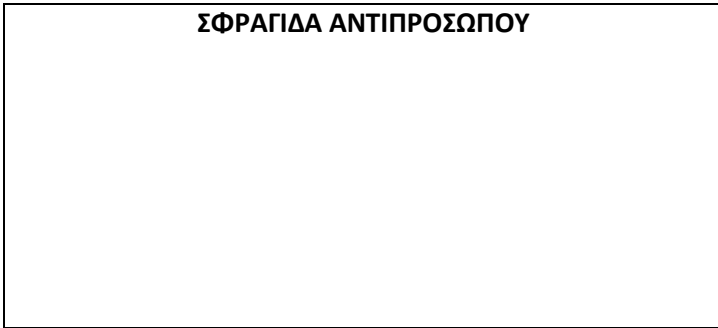

THE ROULETTE RIM

Features: 6061 Aluminum with welded seam. Patent Pending internal reinforced design alloy low weight with high strength. Offset spoke pattern for a stronger build. Width: 34.1mm Side Wall Height: 11.6mm Colors: Black, Gang Green, Neon Orange, White or Chrome Plate. Weight: 16.4oz
